[Project No. 11322-000, California]

**Tuolumne Utilities District; Notice of Availability of Final Environmental Assessment**

July 31, 1995.

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission) Regulations, 18 CFR Part 380 (Order No. 486, 52 FR 47897), the Office of Hydropower Licensing has reviewed the application for a minor license for the Columbia Water Supply Hydroelectric Project, located near the town of Sonora, in Tuolumne County, California, and has prepared a final environmental assessment (EA) for the project.

On March 9, 1995, staff issued and distributed to all parties a draft EA, and requested that comments on the draft EA be filed with the Commission within 30 days. Comments were filed by the applicant and are addressed in the final EA.

In the final EA, the Commission's staff has analyzed the existing and potential future environmental impacts of the project and has concluded that approval of the project, with appropriate environmental protection and enhancement measures, would not constitute a major federal action that would significantly affect quality of the human environment.

Copies of the EA are available for review in the Public Reference Branch, Room 3104, of the Commission's offices

at 941 North Capitol Street, N.E.,  
Washington, D.C. 20426.
